Baby Tracy

On Monday morning I had baby Tracey and Alex was my babysitter until I came back from work. Then I had the baby until 3:00. And I got tired at the end of the day looking after baby Tracey. On Tuesday morning Roxanne was the mother and I was the babysitter and Roxanne was tired today from looking after baby Tracy. And I helped Roxanne looking after it and holding the things like the milk bottle and other things.

Lynda has organised Baby Tracey and programmed her each day. She could be set on Medium, Easy or Hard. Lynda sets her on Medium.

This week I am in Room One because Mr Haynes and Mrs Shirtliff have taken 20 girls to Arthur's Pass for the week. I am also starting Waimea College this week for English classes. They have baby Tracey in Room One most of the time. Baby Tracey is an electronic baby that cries when it's fussy, needs a nappy change, bottle, burping, and hugs. She gets annoying sometimes but babies can't talk so the only way they can interact is by crying. I think this week in Room One will be cool.

By Sarah Read

Each Tuesday I go to Work Experience. On my first day at work experience I planted some peas, beans and rhubarb. At 10:35 we had morning tea at 10:45 we went back to work. I keep on planting, I water all the plants. I got all wet and muddy and then it was home time but before I went home I bought some fish for my class.

At the moment I have been doing ASDAN on Red Cross. It has been a little bit hard but I am getting onto it but I haven't got enough information. I have been getting help from the teachers in Room 1. Room 1 is helping me a lot. I have learnt that you look after people when they are hurt. If they are badly hurt you take them to the hospital.

Wednesday 12th August 2009

Today Mrs Madden took a group of girls to ANZ and Kiwi Bank to talk to Joe and then we went to ANZ to talk to Wendy about an investment of 500 dollars and we got a book from the ANZ staff.
