

Salisbury School Room 1 Newsletter

30 November 2009

Yesterday Room 1 and 7 went to Lake Rotoiti. We went there to learn about different native birds and where they look after native birds in the bush.

By Danielle Mundy

Danielle got class award
Roxanne Chaytor and
Samantha Roughton were
winners in the Whanau
Group Awards during the
Wananga.

On the 12th Room 1 & Room 7 went to the Mapua Aquarium. There was a man called Richard De Hamil who was our teacher. Richard had showed us the fish like, sharks, eels, sea horse, starfish, octopus, nemo fish, stingray and snapper. When I saw the sharks I felt so happy because sharks are my favourite in the sea. I had touched all of the sharks. When you touch the sharks they feel as hard as rubber.

After a while Richard did a puppet show. It was really funny the way Richard's voice changed by acting. I would say yesterday was a fun, fishy day.

Friday 20th November 2009

Yesterday Beatrice came to our school to have breakfast with us. When I saw her I was so shocked that my mouth dropped. It was so cool having a famous person come to Salisbury school for girls for breakfast.

Four girls from the Kapahaka group did a performance and welcomed her on. Then she went to introduce herself to the staff inside and then we all followed after her. We had breakfast with her then after that I asked if I could have her autograph signed on my jacket so she did. Then I asked if I could have a photo with her. Then we came to school to have a good day.
