## Stoke Bakery

On Monday I went to a new work experience. I now work at Stoke Bakery. First I dry dishes ,next I line baking paper in the tins. After wards I clear the tables, then clean the dishes. When it was lunch time I had a pie ,slice and a fizzy drink. After lunch I cleaned up the shop. Next week I will have to go to work on the bus and have to learn to read a time table as well.

We are doing our First Aid Course last term.

Room 1 students enjoying the boil up

Every morning on Monday I work at Freshly Picked. First I put price stickers on carrots parsnips onions mandarins and peppers. The carrots were in the bags already so I used the machine that you put the carrots on it and you push the button and it prints the price stickers to stick on it. I put four peppers into a bag, three small ones and one big one, twist the top of the bag and put it into the machine. You stick the cellotape on the top. I had my break which was 10 minutes. I started finishing the peppers, then I took the ones that were already on the shelf, put them in the trolley, took them and put them in the basket outside. After that I came back in put the rest of the peppers on the shelf. I checked all the chocolate bars and lollies to see if the expiry date inside was ok. Last of all I got a cloth and cleaned the honey jars because they had dust on the top of them. The van picked me up at 12:30. That was a fantastic first day at work experience. By Ashleigh Chambers

At the end of first week back this term our School had a Matariki boil-up. We had pork ribs, potatoes, cabbage , kumara , dough boys and Maori bread. We had to prepare the veggies the day before the boil-up and the next day some girls from Room1 and Room 2 prepared the meat and bread all together.

In week two we went over to Waimea College to do the haka powhiri for Maori language week. Waimea College, Waimea Intermediate and our school took part.
